## VIDEOGRAPHER FAQS

How do I book your services?

To book our services, please contact us through our website or email. We will then schedule a consultation to discuss your wedding vision and details, and send you a contract to reserve your date.

What is included in your wedding videography package?

Our standard wedding videography package includes consultation, filming, editing, and delivery of the final video in a digital format. We also offer additional services such as a highlight reel or same-day edit, as well as filming for engagement shoots or rehearsal dinners.

How do you film the wedding?

We use multiple high-definition cameras and professional audio equipment to capture the ceremony and reception. We also work with the couple to determine any specific shots or moments that they would like us to focus on.

How long does it take to receive the final video?

The length of time it takes to receive the final video depends on the package chosen and the current workload. On average, it takes 4-8 weeks to receive the final video.

Do you offer same-day edits?

Yes, we offer the option for a same-day edit, which is a shortened version of the wedding video that is shown at the reception. This is a popular choice for couples who want to share their special day with their guests in real time.
